

FTN Zambia

REPORT

Big thanks for face the nation Zambia, for making it; indeed it was a great time in the lives of the youths of Christian Brethren (CMML)

Above 375 youths were taught the lessons of Face the Nation and the Rally team performed in a marvelous way that made the youths to really like the program and understand the message.

A good number of them opened-up and there was a huge task to perform in counseling, the response was extraordinary as the youths were very much expectant and willing to learn and put the lessons into practice.

Counseling

Counseling was quite challenging in that, issues they were bring were beyond their age, we thought that we are not going to have issues like what we sow because they were members of the church, only to find that we have a huge task ahead of us even in Church's we have people with lots of issues in they life's

Main Issues encountered

- ❖ Addictive to masturbation
- ❖ Abortion

FTN Zambia

- ❖ STIs
- ❖ Unwanted Pregnancy
- ❖ Emotional Pain

Because of having a lot of people to counsel we were allowed by the leaders of the Conference to go back the following day for the youths we did not Counsel.

Indeed Face the nation is a miracle and the lives of the youths are not same from that day. Many of them came to Justus Wanting to know more about STIs and other consequences of Pre-marital sex this is because he was the one teaching lesson Tow
